

CLick2Go API Documentation (v1.0)

Introduction

This document provides a comprehensive list of all API endpoints for the CLick2Go Api (version 1.0). Each endpoint includes its HTTP method, path, parameters, request body (if applicable), and responses.

Endpoints

API URL : <https://api.click2go.ai>

Admin APIs

GET /Admin/api/GetAccountList

Parameters: None

Responses:

- 200: Success

GET /Admin/api/GetWorkspaceDetailsByPersonalId

Parameters:

- accountId (query, integer, int32)
- mode (query, string) **Responses:**
- 200: Success

GET /Admin/api/GetAudienceList

Parameters: None

Responses:

- 200: Success

GET /Admin/api/GetUserCount

Parameters: None

Responses:

- 200: Success

GET /Admin/api/GetUserCountByDateRange

Parameters:

- from_date (query, string, date-time)
- to_date (query, string, date-time) **Responses:**
- 200: Success

GET /Admin/api/GetWorkspaceCount

Parameters: None

Responses:

- 200: Success

GET /Admin/api/GetWorkspaceCountByDateRange

Parameters:

- from_date (query, string, date-time)
- to_date (query, string, date-time) **Responses:**
- 200: Success

GET /Admin/api/GetCampaignsCount

Parameters: None

Responses:

- 200: Success

GET /Admin/api/GetCampaignsCountByDateRange

Parameters:

- from_date (query, string, date-time)
- to_date (query, string, date-time) **Responses:**
- 200: Success

GET /Admin/api/GetAdvertiserinfo

Parameters: None

Responses:

- 200: Success **GET /Admin/api/deleteworkspce**

Parameters:

- workspaceid (query, integer, int32) **Responses:**
- 200: Success

GET /Admin/api/Getapprovedsmslist

Parameters: None

Responses:

- 200: Success

GET /Admin/api/GetCampaignListAdmin

Parameters: None

Responses:

- 200: Success

GET /Admin/api/GetCampaignListAdminbyDateRange

Parameters:

- from_date (query, string, date-time)
- to_date (query, string, date-time) **Responses:**
- 200: Success **GET /Admin/api/GetInReviewCount**

Parameters:

- Mode (query, string)
- WorkspaceId (query, integer, int32) **Responses:**
- 200: Success

GET /Admin/api/GetAdminDashboardChartDetails

Parameters: None

Responses:

- 200: Success

GET /Admin/api/GetAdminDashboardChartDetailsByDateRange

Parameters:

- from_date (query, string, date-time)
- to_date (query, string, date-time) **Responses:**
- 200: Success

PUT /Admin/api/UpdateCampaignStatus

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: UpdateCampaign **Responses:**
- 200: Success

GET /Admin/api/GetAdminApprovalStatus

Parameters:

- CampaignId (query, integer, int32) **Responses:**
- 200: Success

GET /Admin/api/GetAdminsList

Parameters: None

Responses:

- 200: Success

GET /Admin/api/GetOperatorContactsSummary

Parameters: None

Responses:

- 200: Success

DELETE /Admin/api/DeleteAdminAccess

Parameters:

- AdminId (query, integer, int32) **Responses:**
- 200: Success

GET /Admin/api/GetWhatsappNumbers

Parameters: None

Responses:

- 200: Success

GET /Admin/api/GetBillingCountryandSymbol

Parameters:

- accountId (query, integer, int32) **Responses:**
- 200: Success

GET /Admin/api/GetAllCountriesWithCurrencyName

Parameters: None

Responses:

- 200: Success

GET /Admin/api/GetTotalAmountSpentChart

Parameters:

- currencyName (query, string)
- countryName (query, string)
- from_date (query, string, date-time)
- to_date (query, string, date-time) **Responses:**
- 200: Success

GET /Admin/api/GetShortCodeMapper

Parameters:

- ServerId (query, integer, int32)
- ConnectionId (query, integer, int32) **Responses:**
- 200: Success

PUT /Admin/api/UpdateShortCodeMapper

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: UpdateShortCodeMapper **Responses:**
- 200: Success

POST /Admin/api/InsertAdvertiserChannels

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: AdvertiserChannelRequest **Responses:**
- 200: Success

GET /Admin/api/GetAdvertiserChannels

Parameters:

- workspaceId (query, integer, int32) **Responses:**
- 200: Success

GET /Admin/api/GetPlans

Parameters: None

Responses:

- 200: Success

GET /Admin/api/recorddata

Parameters: None

Responses:

- 200: Success

POST /Admin/api/RecordData/recorddata

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: CampaignRequest **Responses:**
- 200: Success

AdvertiserAccount APIs

GET /AdvertiserAccount/api/GetChannelList

Parameters: None

Responses:

- 200: Success

GET /AdvertiserAccount/api/GetContentList

Parameters: None

Responses:

- 200: Success

POST /AdvertiserAccount/api/CreateCampaign

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: CreateCampaign **Responses:**
- 200: Success

PUT /AdvertiserAccount/api/UpdateCampaign

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: CreateCampaign **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetTemplateDetails

Parameters: None

Responses:

- 200: Success

DELETE /AdvertiserAccount/api/DeleteCampaignByld

Parameters:

- CampaignId (query, integer, int32) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetButtonType

Parameters: None

Responses:

- 200: Success

GET /AdvertiserAccount/api/GetTemplatePlatform

Parameters: None

Responses:

- 200: Success

GET /AdvertiserAccount/api/GetTemplateList/{workspaceId}

Parameters:

- workspaceId (path, integer, int32, required) **Responses:**
- 200: Success

PUT /AdvertiserAccount/api/UpdateTemplate

Parameters:

- TemplateId (query, integer, int32) **Request Body:**
- Content-Type: application/json, text/json, application/*+json
- Schema: TemplateDetailsModel **Responses:**
- 200: Success

POST /AdvertiserAccount/api/CreateTemplate

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: TemplateDetailsModel **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetTemplateDetailsById

Parameters:

- TemplateId (query, integer, int32) **Responses:**
- 200: Success

DELETE /AdvertiserAccount/api/DeleteTemplateById

Parameters:

- TemplateId (query, integer, int32) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetMultipleWorkspacesByEmail

Parameters:

- EmailId (query, string) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetLanguageList

Parameters: None

Responses:

- 200: Success

POST /AdvertiserAccount/api/CreateNotificationSettings

Parameters:

- EmailId (query, string) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetNotificationSettings

Parameters:

- EmailId (query, string) **Responses:**
- 200: Success

PUT /AdvertiserAccount/api/UpdateNotificationSettings/UpdateNotificationSettings

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: NotificationUpdateModel **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetAdvRolesList

Parameters: None

Responses:

- 200: Success

PUT /AdvertiserAccount/api/UpdateUserProfile/updateProfile

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: UserProfileUpdateModel **Responses:**
- 200: Success

PUT /AdvertiserAccount/api/UpdateUserEmailAddress/updateEmailAddress

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: UserEmailUpdateModel **Responses:**

-

200: Success

PUT /AdvertiserAccount/api/UpdateWorkspaceAddress

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: WorkspaceAddressUpdateModel
- 200: Success

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: WorkspaceIndustryModel
- 200: Success

POST /AdvertiserAccount/api/InsertWabaDetails

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: OAuthCallbackRequest
- 200: Success

GET /AdvertiserAccount/api/GetWhatsappPhoneNumbers

Parameters:

- workspaceId (query, integer, int32)
- 200: Success

GET /AdvertiserAccount/api/IsWhatsappTokenValid

Parameters:

- workspaceId (query, integer, int32)
- 200: Success

GET /AdvertiserAccount/api/GetWhatsappOwnerDetails

Parameters:

- workspaceId (query, integer, int32)
- 200: Success

GET /AdvertiserAccount/api/GetProfileImage

Parameters:

- EmailId (query, string)
- WorkspaceId (query, integer, int32) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetCountryList

Parameters: None

Responses:

- 200: Success

GET /AdvertiserAccount/api/GetUserWorkspaceCount

Parameters:

- email (query, string) **Responses:**
- 200: Success

POST /AdvertiserAccount/api/UpdateWabaNPhoneId

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: UpdateWabaNPhoneId **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetMetaTemplateDetails

Parameters:

- workspace_id (query, integer, int32) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetDebitandCreditMessagesCount

Parameters:

accountId (query, integer, int32)

Responses:

200: Success

POST /AdvertiserAccount/api/CreateMessageTemplate

Parameters:

- workspaceId (query, integer, int32)

-
-
- channel_id (query, integer, int32) **Request Body:**
- Content-Type: application/json, text/json, application/*+json
- Schema: MetaTemplateDetails **Responses:**
- 200: Success

POST /AdvertiserAccount/api/CreateSMSMessageTemplate1

Parameters:

- channel_id (query, integer, int32)
- workspace_id (query, integer, int32) **Request Body:**
- Content-Type: application/json, text/json, application/*+json
- Schema: SMSTemplateDetails **Responses:**
- 200: Success

POST /AdvertiserAccount/api/CreateSMSMessageTemplate

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: smstemplate **Responses:**
- 200: Success

GET /AdvertiserAccount/api/Getmssenderlist

Parameters:

- workspaceid (query, integer, int32)
- channelid (query, integer, int32) **Responses:**
- 200: Success

POST /AdvertiserAccount/api/EditSMSMessageTemplate **Parameters:** None **Request Body:**

- Content-Type: application/json, text/json, application/*+json
- Schema: smstemplate **Responses:**
- 200: Success

PUT /AdvertiserAccount/api/EditMessageTemplate

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: Empty **Responses:**

- 200: Success

GET /AdvertiserAccount/api/GetCountryDetails

Parameters: None

Responses:

- 200: Success

GET /AdvertiserAccount/api/CheckEditPermission

Parameters:

- templateId (query, string) **Responses:**
- 200: Success

DELETE /AdvertiserAccount/api/DeleteSMSMessageTemplate

Parameters:

- id (query, string)
- template (query, string)
- workspaceId (query, integer, int32) **Responses:**
- 200: Success

DELETE /AdvertiserAccount/api/DeleteMessageTemplate

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
Schema: DeleteTemplateRequest **Responses:**
200: Success

POST /AdvertiserAccount/api/UploadFile

Parameters: None

Request Body:

- Content-Type: multipart/form-data
- Properties: file_name (string), file_length (string), file_type (string), workspace_id (string), channel (string), ContentType (string), ContentDisposition (string), Headers (object), Length (integer, int64), Name (string), FileName (string) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/SyncTemplatesWithMeta

Parameters:

-
-
- workspaceId (query, integer, int32) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetAdvAudienceListDetailsByWorkspaceId

Parameters:

- workspace_id (query, integer, int32) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/Getcampaigncontacts

Parameters:

- CampaignId (query, string) **Responses:**
- 200: Success

POST /AdvertiserAccount/api/GetOperatorsByCountry

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: GetOperatorsByCountryRequest **Responses:**
- 200: Success

POST /AdvertiserAccount/api/contact_upload

Parameters: None

Responses:

- 200: Success

GET /AdvertiserAccount/api/GetFile

Parameters:

- templateId (query, string) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetImage

Parameters: None

Responses:

- 200: Success

GET /AdvertiserAccount/api/DeleteAccountByEmail

Parameters:

- email (query, string) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/deleteworkspce

Parameters:

- workspaceid (query, integer, int32) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetIndusryList

Parameters: None

Responses:

- 200: Success

GET /AdvertiserAccount/api/GetCampaignListbyDateRange/{workspaceId}

Parameters:

- workspaceId (path, integer, int32, required)
 - from_date (query, string, date-time)
 - to_date (query, string, date-time)
- Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetCombinedStatisticsByDateRange

Parameters:

- workspaceId (query, integer, int32)
- from_date (query, string, date-time)
- to_date (query, string, date-time) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GetCombinedStatistics

Parameters:

- workspaceId (query, integer, int32) **Responses:**
- 200: Success

POST /AdvertiserAccount/api/SubscribeToWebhook

Parameters:

- workspaceId (query, integer, int32) **Responses:**
- 200: Success

-
-

DELETE /AdvertiserAccount/api/UnsubscribeFromWebhook

Parameters:

- workspaceid (query, integer, int32) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GeWorkspacenamesbyworkspaceid

Parameters:

- workspaceid (query, integer, int32) **Responses:**
- 200: Success

GET /AdvertiserAccount/api/GeWorkspacenamesbyid

Parameters:

- accountid (query, integer, int32)

- workspaceid (query, integer, int32)
Responses:
 - 200: Success

Parameters: None

Responses:

- 200: Success

**GET
/AdvertiserAccount/api/GetMetaTemplateDetailsById**

Parameters:

- template_id (query, string)

Responses:

- 200: Success

POST /AdvertiserAccount/api/RegisterWhatsappNumber

Parameters:

- workspaceId (query, integer, int32)
- phoneId (query, string) **Responses:**
- 200: Success

POST /AdvertiserAccount/api/DeRegisterWhatsappNumber

Parameters:

- workspaceId (query, integer, int32)
- phoneId (query, string) **Responses:**

- 200: Success

POST /AdvertiserAccount/api/CreatePaymentLink

Parameters: None **Request Body:**

- Content-Type: application/json, text/json, application/*+json
- Schema: PaymentLinkRequest

Responses:

- 200: Success

GET /AdvertiserAccount/api/GetCurrencyById

Parameters:

- workspaceId (query, integer, int32)

Responses:

- 200: Success

Payment APIs

POST /api/payment

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: PaymentRequest

Responses:

- 200: Success

POST /api/payment/status/{merchantOrderId}

Parameters:

- merchantOrderId (path, string, required)

Responses:

- 200: Success

POST /api/webhook/phonepe

Parameters: None

Responses:

- 200: Success

-

SMS APIs

POST /Sms/api/connect

Parameters:

ServerId (query, integer, int32)

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: SmppConnection

Responses:

- 200: Success **POST /Sms/api/send**

Parameters:

- serverId (query, integer, int32)
- ConnectionId (query, integer, int32)

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: SendSmsRequest

Responses:

- 200: Success **POST**

/Sms/api/sendBulk

Parameters:

- serverId (query, integer, int32)
- ConnectionId (query, integer, int32)

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: SendBulkSmsRequest

Responses:

- 200: Success **POST**

/Sms/api/disconnect

Parameters:

- serverId (query, integer, int32)
- ConnectionId (query, integer, int32)

Responses:

- 200: Success **GET /Sms/api/isAlive**

Parameters:

- serverId (query, integer, int32)
- ConnectionId (query, integer, int32)

Responses:

- 200: Success

GET /Sms/api/isServerAlive

Parameters:

- ServerId (query, integer, int32)

Responses:

- 200: Success

POST /Sms/api/createserver

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: CreateSMSServer

Responses:

- 200: Success

GET /Sms/api/getservers

Parameters: None

Responses:

- 200: Success **GET**

/Sms/api/getconnections

Parameters:

- ServerId (query, integer, int32)

Responses:

- 200: Success **GET**

/Sms/api/getconnectionsById

Parameters:

- ServerId (query, integer, int32)
- ConnectionId (query, integer, int32)

Responses:

- 200: Success

-

POST /Sms/api/createconnection

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: SmpConnectionRequest

Responses:

- 200: Success

Health and Webhook APIs

GET /health

Parameters: None

Responses:

- 200: Success

POST /api/webhook/stripe

Parameters: None

Responses:

- 200: Success **GET**

/Whatsapp/api/Webhook

Parameters:

- hub.mode (query, string)
- hub.challenge (query, integer, int32)
- hub.verify_token (query, string)

Responses:

- 200: Success

POST /Whatsapp/api/Webhook

Parameters: None

Request Body:

- Content-Type: application/json, text/json, application/*+json
- Schema: Empty **Responses:**
- 200: Success
-
